

## 5 Reasons Universities Should Join SWAN

- 1. Focus on Young Professionals** - Explore the leading hub for smart water resources, meet other like-minded young professionals, and engage directly with SWAN's global member community through [RiSWP](#), the SWAN Rising Smart Water Professionals Group.
- 2. Cutting-Edge Research** - Access innovative [SWAN Research](#) (e.g. Global Utility Survey, Smart Wastewater White Paper, Global Water Regulator Report), as well as the chance to showcase your own research through the [SWAN Research Portal](#).
- 3. Global Networking** – Receive full access to all global SWAN events and webinars, including one free pass to the [SWAN Annual Conference](#) (this year in Barcelona), as well as [discounts](#) to leading, global industry events.
- 4. Take a Lead Role** – Collaborate with SWAN Members through the [SWAN North American Alliance](#), [SWAN Asia-Pacific Alliance](#) and SWAN Interoperability Workgroup, and position your university as a smart water thought leader.
- 5. Career Development** – Discover research and internship opportunities, including free access to the [SWAN Interactive Tool](#), SWAN partner resources, and [discounts](#) to leading analyst reports.

---

Membership is annual and determined on a rolling-basis. Below is a breakdown of membership prices for universities and individual students:

<b>Universities (includes full student access)</b>	£500 (\$700)
<b>Individual Student</b>	£100 (\$140)
